### Job description:

You'll join a collaborative team of six doctors who work together to provide high-quality care. Our walk-in model and collaborative scheduling approach means you'll see a wide variety of wellness, sick and urgent cases without having to build your own client base. Whether you're a seasoned clinician or early in your career, you'll be surrounded by strong mentorship, a team-first mindset, and genuine support. We're constantly innovating to offer the best care possible. From reproduction and endoscopy to a full-body CT scanner, you'll have access to advanced tools to enhance diagnostics and treatment. We're also open to expanding services to include exotics and mixed animal care – your interests can help shape our future!

### Miscellaneous:

**All experience levels welcome to apply – New Graduate Mentorship Program offered!**
